# Tansun heaters quick reference guide

## SORRENTO

The Tansun Sorrento is a robust weatherproof heater. Being of modular design it can be grouped together to create a bespoke heating system to meet specific requirements. This product is suitable for indoor or outdoor use in a range of applications including hard to heat buildings or draughty areas.

**Ideal for:** Sports Halls, Smoking Areas, Conservatories, Churches, Farming, Horticulture, Reception Areas, Retail Outlets, Zoos, Garages, Workshops, Factories, Warehouses, Patios, Terraces and many more.

## SORRENTO Double | Triple

The Tansun Sorrento is a premium versatile heater that is also available in a double or triple option. It can be grouped together horizontally or vertically, making it suitable for countless applications.

**Ideal for:** Aircraft Hangers, Amusement Parks, Bars and Restaurants, Factories, Farming and Horticulture, Schools and Colleges, Shops and Retail Outlets, Sports Halls and Zoos, etc.

## RIO IP

The Tansun RIO IP is a slim, weatherproof heater, suitable for a variety of applications. The RIO IP is compatible with a range of Tansun brackets for use with awnings, umbrellas, and windscreens. It is also compatible with Tansun dimmers for total heat control.

**Ideal for:** Conservatories, Summerhouses, Patios, Terraces, Bathrooms, Swimming Pools, Spas, Reception Areas, Smoking Areas, Bars, Restaurants, Workshops, Garages, Golf Areas and many more.

## RIO GRANDE Single | Double

The Tansun RIO Grande, is a stylish, weatherproof heater which fits in effortlessly into many surroundings. It is compatible with Tansun and Somfy heat control systems making it ideal for use in many applications.

**Ideal for:** Bars, Restaurants, Conservatories, Patios, Terraces, Reception Halls, Smoking Areas, Swimming Pools, Spas, Summerhouses, Bowling Alleys, Sport Stadiums, Warehouses, Dance Halls and many more.

## RIVIERA ELITE

The Riviera sets the benchmark in design with its minimal but elegant aesthetics combined with its solid and robust aluminium engineered construction. It incorporates 3 heaters which offer up to 6kW of 360 degree heat. The Riviera freestanding heaters are a flexible alternative to wall mounted models and offer much greater versatility in terms of where you require heat, especially in commercial restaurant settings.

**Ideal for:** Bars and restaurants, Pub patios areas, Theme parks, Hotels, Private gardens, Smoking areas, Swimming pools & spas, Train stations, Open spaces, and many more.

## Eclipse Double | Triple | Quad

The Tansun Eclipse is a new no glare infrared heater. Constructed from powder coated black profile, its modern sleek design will allow it to fit easily into upscale environments and also it is also perfect for where heat is required but without the glare. The latest in design and engineering, the Eclipse incorporates the most advanced ceramic heating technology, which gives the heater 35% more energy efficiency than others of its kind.

**Ideal for:** Patios and terraces, offices, conservatories, studios, hotel environments, restaurants and bars, casinos and theatres.

## MONACO Single | Double | Triple

The Monaco dual low glare range is fitted with unique gold reflectors and Osram premium energy saving low glare element as standard. This versatile range has an high IP rating and can be used for indoor or outdoor environments where an ambient environment is required.

The Monaco has been designed to reduce the visible light which shortwave infrared produces.

**Ideal for:** Hotels, Restaurants, Bars, Roof Terraces, Night clubs, VIP seating areas.

## BAHAMA Single | Double

The Bahama dual low glare range is fitted with unique gold reflectors and Osram premium energy saving low glare element as standard. This discreet low glare heater produces high powered full shortwave heat without the visible glare of standard models. The Bahama has an high IP rating and can be used for indoor or outdoor environments where an ambient environment is required.

**Ideal for:** Discreet heating. Awnings, Canopies, Gazebos, Hotels, Restaurants, Bars, Roof Terraces, Night clubs, VIP seating areas.

## SORRENTO CERAMIC

A member of the Sorrento family with zero light ceramic elements fitted, which gives off no visible light whatsoever. This range of ceramic heaters is especially useful in environments where additional light is not welcome. The Sorrento ceramic is fitted with a 1.3kW emitter which can be grouped together to create bespoke heating systems ideal for small offices, class rooms including hard to heat areas where light can not be used.

**Ideal for:** Conservatory heating, Cinemas, Photographic studios, Greenhouse heating, Restaurants and bars, Offices and Schools, Casinos, Food processing areas, and many more.

## SORRENTO CERAMIC Double | Triple

Tansun's Sorrento Ceramic heaters are ideal for those indoor applications where a lower heat level is preferred in conjunction with a heater which produces no light and contains no glass. They are especially suitable for those who find the light given out by conventional heaters distracting. The long-life ceramic emitters rapidly turn all electrical energy consumed into long-wave infrared heat.

**Ideal for:** Frost Protection, Halls, Horticulture, Hospitals, Print Workshops, Offices and Schools, Shops, Sports Halls, Theatres, Zoos, Photography and Film Studios, and many more.

## BEAVER

This light, yet robust heater offers flexibility when emergency or 'spot' heating is required. It is powder coated to prevent paint chips, and is fitted with an anti-tilt safety device to prevent misuse or accidents when on site.

**Ideal for:** Boatyards - Osmosis Treatment and Antifoul Drying, Bodyshops, Building and Construction, Emergency Heating, Factories, Garages and Workshops, Helps De-humidification, Paint and Plaster Drying and many more.

## SPOTTER

This sturdy mobile heater offers efficient and reliable emergency or 'spot' heating. The Spotter is fitted with an anti-tilt device and lockable front wheels as added safety features when being used on site.

**Ideal for:** Boatyards - Osmosis Treatment and Antifoul Drying, Bodyshops, Building and Construction, Emergency Heating, Factories, Garages and Workshops, Helps De-humidification, Paint and Plaster Drying and many more.
